# 1941 Gladiolus Guide & Price List

## Reliable Varieties — Accurate Descriptions Quality Bulbs at Reasonable Prices

**BULBS GROWN** here on the OREGON DESERT with ample irrigation are unusually fine and vigorous. State inspectors find very little disease and NO THRIPS. Large bulbs are grown from small stock, this takes a year longer and is more expensive than forcing to full size from bulbets in a single season. BUT bulbs are stronger, have thicker husks, more vitality and DO produce better spikes.

**SATISFACTION GUARANTEED.** If bulbs are not satisfactory, just let me know and I'll try to make it right. Sometimes a bulb goes "haywire" for no good reason, and sometimes soil, weather or other conditions are bad and the bulbs are not to blame. But YOU be the judge!

**ORDER EARLY PLEASE!** We are both ahead when I get orders filled before planting time and the last minute rush. Late in the season I sometimes have to substitute in size, or a similar variety, also with planting to worry about, I just can't give the attention I do earlier. When stocks begin running low I am sometimes less generous than when they are plentiful.

**POSTAGE** will be paid on retail orders of over \$1.00 in U. S. On smaller orders, please add 10c. Try to make your order total at least \$1.00. Most retail orders are sent by mail, on larger orders it is sometimes cheaper to send by express, if your town has a station. Western orders can be mailed safely most anytime excepting in spells of sub-zero weather. Bulbs sent East before March 25 at buyers risk. Express shipments safe anytime.

**DISCOUNTS.** After you get your order made up you may select additional bulbs from the retail list to the extent of: 10 per cent on orders of from \$2 to \$5; 15 per cent on orders of from \$5 to \$25; 20 per cent on orders of from \$25 to \$50; 25 per cent on orders of from \$50 up. (This applies ONLY on bulbs ordered from the retail list, and when order is accompanied by cash).

**WHEN YOU ORDER** give your name and address; state varieties, size and amount of each wanted, and enclose remittance by Money Order, Check or Currency. Stamps on small orders only. Bulbs can be sent C. O. D. if you wish, the Postal Service makes a charge of 12c and up on each package above postage. C. O. D. orders to be held for shipment at a later date must be accompanied by 25 per cent in cash. Orders will be receipted by postal card as soon as possible after being received. Make checks payable, mail orders to PAUL BRANDON, Rt. 1, BEND, OREGON.

**ABOUT SIZES,** Large bulbs are the best size to buy, they are full of vigor and produce the largest and earliest flowers. Some varieties, like Rewi Fallu, produce rather small bulbs—yet these produce huge flowers.

Medium size bulbs make fine flowers, often as good as large bulbs, they bloom only a little later.

Small bulbs sometimes bloom, and they grow to large bulbs for another season.

Bulbets rarely bloom, they produce small stock for next season. Some are hard to germinate, don't buy them unless you are familiar with growing, they are not guaranteed to grow. A Pkt. of bulbets is not counted, there will be from 25 to a couple of hundred, depending on how much stock I have, good value always.

**PRICES** quoted are postpaid in U. S. I try to keep them on par with other growers and will meet their prices if I have stock.

**NOT LESS** than 10c worth of a variety sold. You will find that you will get more enjoyment from a variety if you have more than one bulb of a kind—and these prices are low enough that anyone can have more than one of the standard varieties.

You may have 3 bulbs for 10c on those listed @ 35c per dozen. 2 for 10c where listed @ 50c per dozen; 2 for 15c where listed @ 75c per dozen; Others @ 1/10 the price of 12; 12 for 10 times the one rate; 6 @ dozen rates; 25 or 50 @ 100 rate; BUT NO ITEM FOR LESS THAN 10c.

**GRADED DOZENS,** 4 large, 4 medium and 4 small bulbs of a variety for 6 times the price of one large bulb, thus Beacon, 12—75c, 1 for 7½c x 6=45c. These give a long period of bloom at small cost.

**THANK YOU** for the many orders you sent last season, also the nice letters received during the summer, sorry I did not get them all answered, they were certainly appreciated. I am leaving out comment in this year's list, hope to be able to go back to the old form next season. Believe almost every variety listed is worthwhile, though all don't do equally well in all climates.

Figures in descriptions just following variety name (36-4-6) indicate height of plant (36 inches), size of flower (4 inches across), and number (6) open at one time.

Each variety will be separately and properly labelled.

No new introductions this year, have one for '42. A pink such as I've always dreamed of seeing, "DREAM PINK." Another, "KLONDIKE KATE," will be offered soon, it's an extremely early flaming red gold.

VARIETY	DESCRIPTION	Large *1¼ in. up	Medium ¾ to 1¼ in.	Small Under ¾ in.	BULBLETS

		12— 1.35		12— .75		12— .35		

## Small Decoratives

Smaller flowered varieties especially useful for small bouquets about the home where largere flowered varieties are obviously in poor taste. Special divisions are supplied for them in most of the up-to-date flower shows, for their value is becoming increasingly appreciated.

Some of those listed are 'in between' and if given good culture grow too large for the classification. Medium and small bulbs produce smaller spikes than the larger size.

VARIETY	DESCRIPTION	Large 1 1/4 in. up	Medium 3/4 to 1 1/4 in.	Small Under 3/4 in.	BULBLETS
Baby Bronze 36-2-5,	Tiny bronze, red line	12— .50	12— .30	12— .15	Pkt.— .10
Betty Co-Ed 36-3-5,	Exquisite light pink	12— .50	12— .25	12— .15	Pkt.— .10

**CULTURAL DIRECTIONS** and thrips control still available, free with orders, if you ask for them, while they last.

**MIXED BULBS 50 for \$1.00, 300 for \$5.** 25 excellent varieties in this mixture, mostly large flowered type, my selection of varieties, don't believe you can find a better mixture anywhere, bulbs are large, blooming size and will be sent prepaid in U. S., (no discount on this).

**GLAD SEED 10c PKT.** Produce new varieties! No telling what you'll get, for the seed have been saved from the best new varieties, some selling at several dollars each. Plant 1/2 to 1 inch deep. Some may bloom the first fall.

**SOUTHERN CUSTOMERS** who plant glad bulbs throughout the summer and fall: I am generally able to supply until about September 1. Try them for fall and winter flowers after hot weather passes.

**DAHLIAS** 10 fine varieties, all different labelled, \$1.00 prepaid. A wide range of types and colors, no price list this year. Send dahlia correspondence to Mrs. Jane Pangburn, 1564 Galveston, Bend, Ore.

**WHOLESALE GLAD PRICES,** If you are interested in buying by the 100 or more of a size and variety, and paying your own transportation, send a list of varieties giving size and amount of each wanted, and I will give you my quotation. Do it soon as most of the No. 1 size is already sold out, lots of the smaller sizes still available. No list printed this year.
